<b>Eye Contact:</b>	None expected to be needed, however, use an eye wash to remove a chemical from your eye regardless of the level of hazard.
<b>Skin Contact:</b>	Wash with soap and water. Get medical attention if irritation develops or persists.
<b>Ingestion:</b>	Rinse mouth. Do not induce vomiting. Seek medical attention if symptoms develop.
<b>Most important symptoms/effects, acute and delayed:</b>	Repeated or prolonged skin contact may cause dermatitis and defatting. Never attempt to induce vomiting. Risk of inhalation.
<b>Indication of immediate medical attention and special treatment needed, if necessary:</b>	No additional first aid information available.

## 5. Fire-fighting measures

<b>Suitable (and unsuitable) extinguishing media:</b>	Use alcohol resistant foam, carbon dioxide, or dry chemical when fighting fires. Water or foam may cause frothing if liquid is burning but it still maybe a useful extinguishing agent if carefully applied to the surface of the fire. Do not direct a stream of water into the hot burning liquid.
<b>Suitable extinguishing media:</b>	
<b>Unsuitable extinguishing media:</b>	Do not use a heavy water stream. Use of heavy stream of water may spread fire.
<b>Specific hazards arising from the chemical:</b>	Burning produces irritating, toxic, and noxious flames. No dangerous reactions known.
<b>Hazardous combustion products:</b>	Carbon monoxide, Hydrogen sulfide, Nitrogen containing gases Use water spray or fog for cooling exposed containers. Exercise caution when fighting any chemical fire. Prevent firefighting water from entering the environment. Do not enter fire area without proper protective equipment, including respiratory protection. Wear a self-contained breathing apparatus. Wear fire/flame resistant/retardant clothing.
<b>Special protective equipment and precautions for fire-fighters:</b>	

## 6. Accidental release measures

<b>Personal precautions, protective equipment and emergency procedures:</b>	Avoid all contact with skin, eyes, or clothing. Avoid breathing (vapor, mist, spray).
<b>Methods and materials for containment and cleaning up:</b>	Clean up spills immediately and dispose of waste safely. Spills should be contained with mechanical barriers. Transfer spilled material to a suitable container for disposal. Contact competent authorities after a spill.
